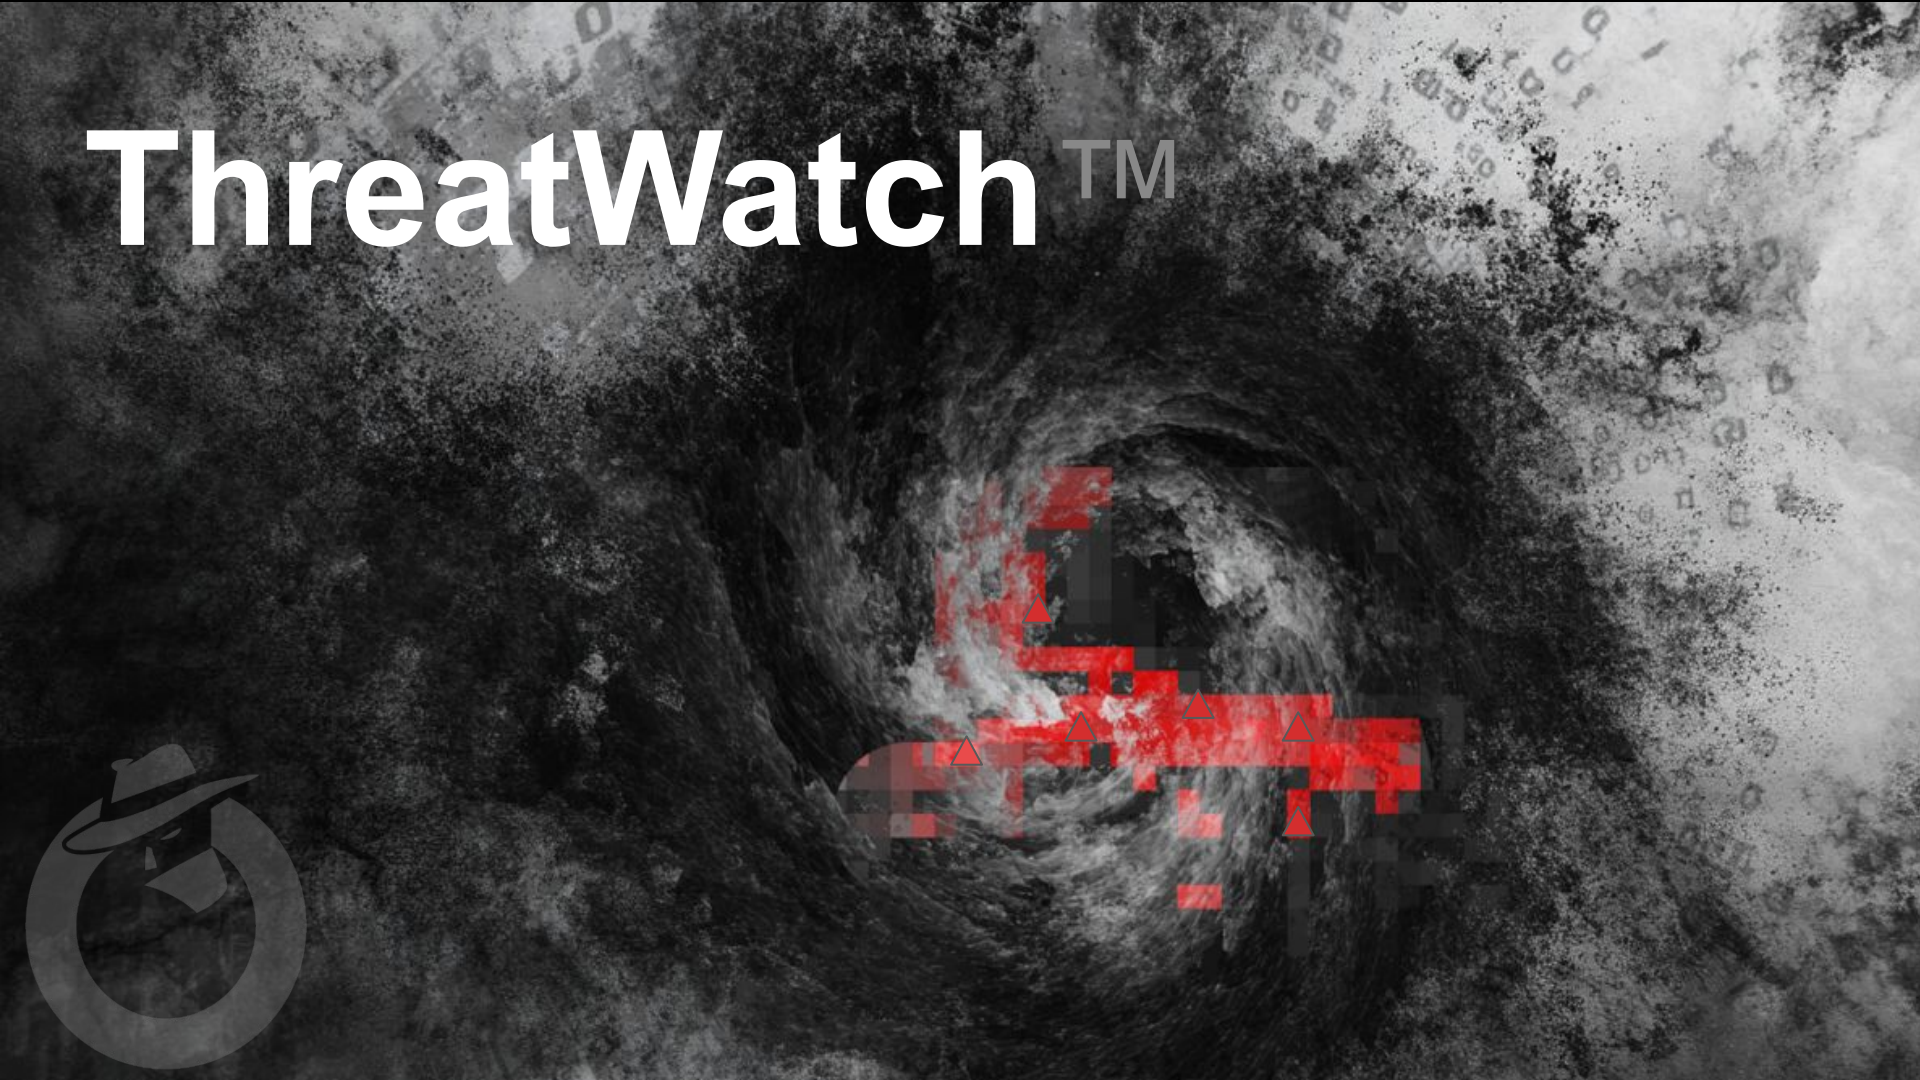
# ThreatWatch™



# What if you had Doppler Radar…

# …but for digital trouble?

An ocean
of data.

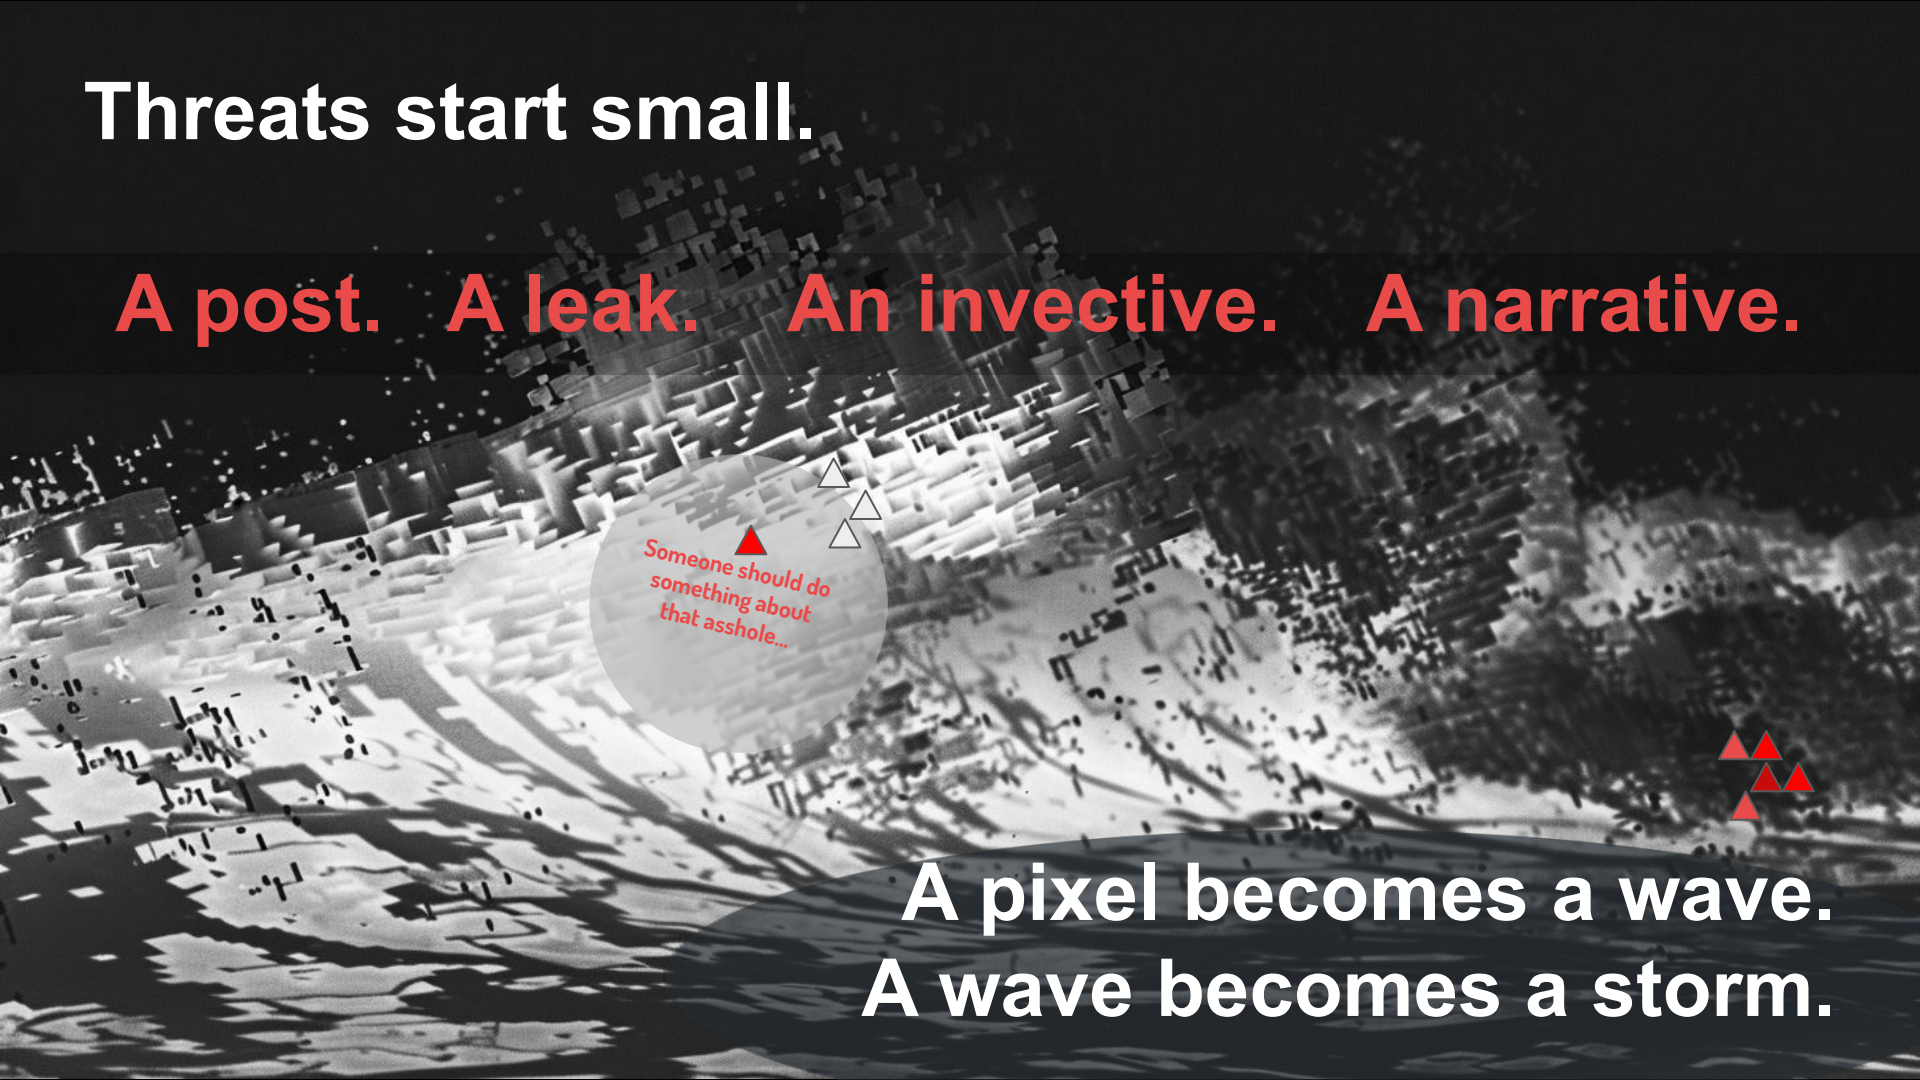
Pieces of you drifting, waiting to be found...
Anyone can tap it. Anyone can weaponize it.



Threats start small.
A post. A leak. An invective. A narrative.
Someone should do something about that asshole...
A pixel becomes a wave.
A wave becomes a storm.

Most teams only see the storm once it makes landfall...
By then the damage is already devastating.

# Crisis is one missed signal away.

Digital threats move with hurricane speed.
ThreatWatch lets you see the first ripples,
then take action.

# You Need Active Monitoring

# Three Layers of Protection

**Social & Narrative Shifts**

**DarkWeb & Fringe Threat Formation**

**Digital Intent >> Physical Space**

1

# Proactive Social & Narrative Intel

We track patterns, escalation, and coordination.

We spot narrative shifts before they gain momentum.

Early warning buys time to act.

2

# Dark Web & Fringe Threat Intel

Threats form in dark web forums, leaks, and fringe networks.

We uncover early indicators…
before they go operational.

3

# Digital Intent to Physical Movement

Some threats move through space.

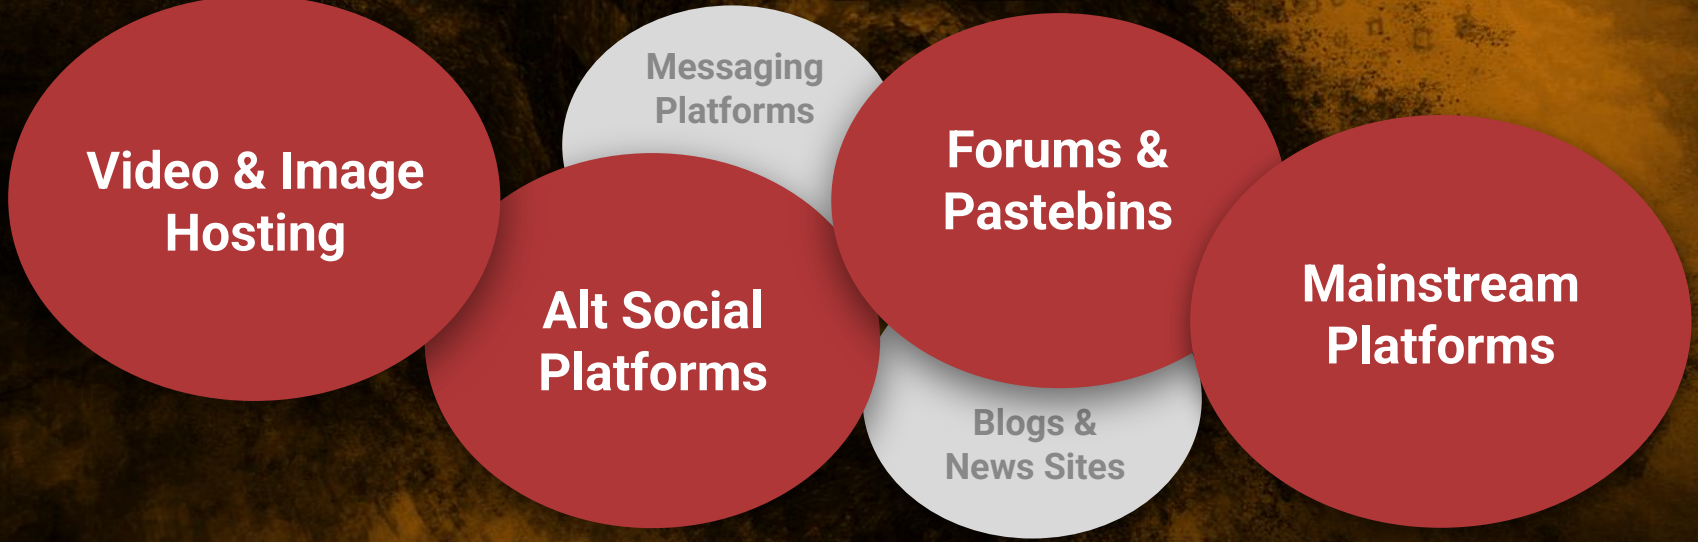
We monitor activity around
homes, offices,
and events.

We alert when digital intent shifts
into physical movement.

# Real outcomes. Real time saved.

- 24 hours of lead time on a narrative spike
- Leak shut down before it spread on Telegram
- 36 hour warning on a planned summit disruption

# ThreatWatch: We Scan It All



We look for: **Targeting**. **Hostility**. **Intent**.

# AI coverage. Human confirmation.

AI sorts the noise.

Analysts confirm the intent.

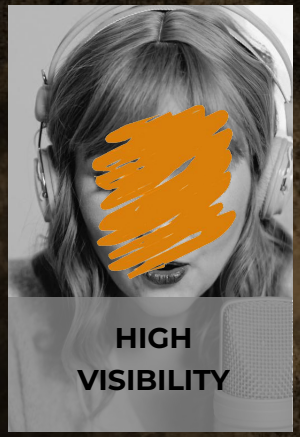
You get signal without overload.

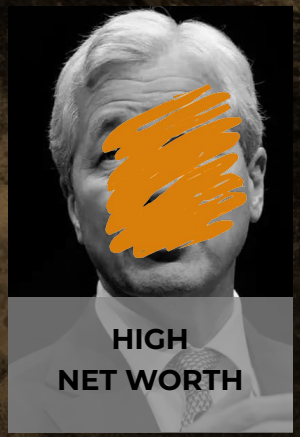
# Designed for Discretion

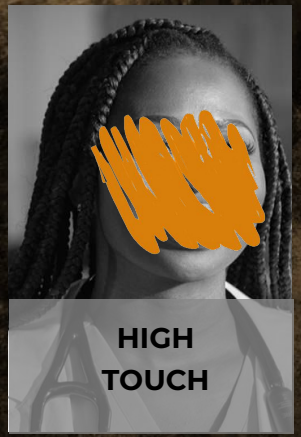
Executives. Public figures. Activists.

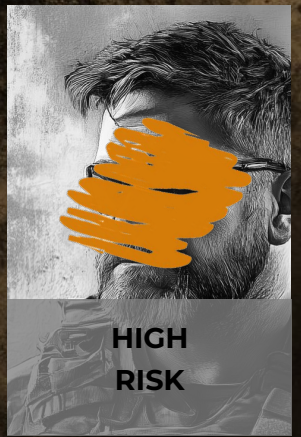
Legal teams. High net worth families.

Quiet protection. Zero outsourcing.









# What Clients Say About ThreatWatch

*“It feels like radar for the internet.”*

**- - Wealth Management Client**

*“You don’t just monitor. You interpret.”*

**- - Army Former Intelligence Analyst**

*“You caught what our internal team missed.”*

**- - Political Nonprofit Client**

Threats move fast. We move faster.
