

ThreatWatch

The digital layer of executive protection.

Continuous OSINT collection, reviewed by human analysts, delivered as investigated intelligence with a recommended action.

OBSCUREIQ · THREATWATCH

MMXXVI · REF. TW-01

EVERY ALERT HUMAN-REVIEWED	TIERED ALERTING	THREAT-ACTOR ATTRIBUTION	MANAGED TAKEDOWNS INCLUDED
----------------------------	-----------------	--------------------------	----------------------------

ThreatWatch combines continuous automated collection with human analyst review to monitor the digital landscape for threats involving the people you protect. The platform ingests publicly accessible activity across social media, video, forums, messaging and the open web, surfacing threats, harassment, doxxing, concerning discussions and emerging narratives. **Every relevant finding is reviewed by an ObscureIQ analyst before it reaches you.** No noise.

HOW A SIGNAL BECOMES INTELLIGENCE

01 Collect Continuous OSINT across mainstream, alternative, video, messaging and anonymous boards.	02 Analyze Every finding is analyst-reviewed before it reaches you.	03 Attribute Identity, credibility and coordination assessed for every actor behind a threat.	04 Resolve Tiered alerting, managed takedowns and lawful attribution of the actor.

CAPABILITIES

FULL-SPECTRUM PROTECTION, OPERATED BY ANALYSTS

Monitoring & Alerting Continuous collection across social, video, messaging and forums, with analyst-vetted alerts delivered as findings are confirmed.	Doxxing & PII Exposure Monitoring for exposed names, aliases, addresses, phone numbers and email data across forums, paste sites and social platforms.	Threat-Actor Unmasking & Attribution Lawful attribution that automated tools cannot reach: resolving anonymous accounts to real identities and weighing credibility and intent.
CIB & Network Analysis Detect coordinated inauthentic behavior, from bot clusters to sock puppets to orchestrated campaigns, and map the network behind it.	Narrative & Influencer Amplification Identify the accounts driving a narrative and track how reach and sentiment spread toward your people and organization.	Takedowns & Exposure Reduction Remove harmful content and reduce exposure of homes, family and personal data through managed takedowns.

PLATFORM COVERAGE

ObscureIQ maintains monitoring across millions of online sources. The platforms below are a small sample of our broader coverage.

MAINSTREAM SOCIAL	Facebook, X (Twitter), Instagram, Threads, LinkedIn, Reddit, TikTok
ALTERNATIVE PLATFORMS	Gab, Truth Social, Rumble, VKontakte, Bluesky, Mastodon
VIDEO & STREAMING	YouTube, Twitch, Vimeo, Dailymotion
MESSAGING (OSINT-ACCESSIBLE)	Telegram, Discord
FORUMS & ANONYMOUS BOARDS	4chan, 8kun, independent forums, chan boards
BLOGS & NEWS	Global news sources, blogs, open web publications

Coverage varies based on source accessibility, platform conditions, and applicable legal and ethical constraints. All monitoring is limited to publicly accessible and OSINT-available sources.
